Distressing Condition of the Sick and LATEST BY TELEGRAPH Wounded Volunteers in Stelly. The following distressing account, dated Messina, August 17, of the sanitary condition of the Garibaldian volunteers in Sicily, has been received by one of the Honorary Secretaries of the Ladies' Garibaldi Benevolent

Association: In the absence of the General, I was asked to visit the hospitals of Melazzo and Bar-cellons, with the view of introducing some cellona, with the view of introducing some improvements into the administration of the sanitary department. I have suggested some improvements there. An extract of my report to the Secretary of War I have given in the Lancet; and I have also employed the editor of that journal to plead the cause of the poor, wounded patriots. After my return from Melazzo I find a very melancholy state of the army; 12,000 stationed at Faro are worn out with fatigue and hunger, and debilitated with fever; the hospitals are crowded; there are 500 men in the hospitals here without a pillow or sheet—without a shirt—without every thing. Send them direct to Messina, to the care of the English Consul. I wish very much to join Garibaldi as soon as possible, but I shall not leave this until I have organized an ambulance to cope with the emergencies of the campaign. At least I shall endeavor to do so. I am glad to hear that you have sent some money to Medsme. that you have sent some money to Madame Mario, and also some boxes, which we expect with impatience. That lady's efforts on behalf of these poor, brave fellows, I think beyond praise. She is very energetic; runs from Barcellona to Faro like lightning, and works very hard.
